WINNIPEG

The Marvelous Metropolis of the Wonderful West

THIRTY-FIVE years ago Winnipeg's population was less than 1,000; to-day its population is estimated at 160,000. Twenty-two railway tracks radiate from it, and the C.P.R. yards here with its 120 miles of sidings is the largest in the world controlled by a single corporation. The C.N.R. and G.T.R. railway systems have just completed a Union Station at a cost of \$1,500,000.

Winnipeg is the chief wholesale and jobbing as well as manufacturing centre of Manitoba, Saskatchewan and Alberta, the annual freight receipts amounting to over 2,000,000 tons. It is the gateway to the East, as well as to the West, and a harvest of wheat flows through the city annually to the markets of the world.

The city is one of broad streets, beautifully treed boulevards, of many churches, colleges and schools; in fact, it is the business, social and educational centre of Canada's Great West, and is a city with a future more wonderful than its past.
